The following applies to the presentation (the "Presentation") following this important notice, and you are, therefore, advised to read this important notice carefully before reading, assessing or making any other use of the Presentation. In accessing the Presentation, you unconditionally agree to be bound by the following terms, conditions and restrictions.

This Presentation has been prepared by Etalon Group Limited ("Etalon Group" or the "Company") for informational purposes only and does not constitute or form part of, and should not be construed as, an offer or invitation to sell or issue, or any solicitation of any offer to subscribe for or purchase any securities of the Company in any jurisdiction or an inducement to enter into investment activity. This Presentation is strictly confidential and may not be copied, distributed, published or reproduced in whole or in part, or disclosed or distributed by recipients to any other person in any form.

This Presentation (i) is not intended to form the basis for any investment decision and (ii) does not purport to contain all the information that may be necessary or desirable to evaluate the Company fully and accurately or otherwise in all material respects, and (iii) is not to be considered as recommendation by the Company or any of its affiliates that any person (including a recipient of this Presentation) participate in any transaction involving the Company or its securities. The information contained in this Presentation has not been independently verified and the Company does not undertake any obligation to do so. No representation, warranty or undertaking, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained in the Presentation or any other material discussed in connection with the Presentation. Neither the Company nor any of its directors, officers, employees, shareholders, affiliates, advisors or representatives shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this Presentation or its contents or otherwise arising in connection with the Presentation.

Any 'forward-looking statements', which include all statements other than statements of historical facts, including, without limitation, forecasts, projections and any statements preceded by, followed by or that include the words 'targets', 'believes', 'expects', 'aims', 'intends', 'will', 'may', 'anticipates', 'would', 'could' or similar expressions or the negative thereof, involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include statements regarding: our construction programme and future construction and development projects (information concerning which is being provided solely on an indicative basis for information purposes only and is subject to change without notice); strategies, outlook and growth prospects; future plans and potential for future growth; liquidity, capital resources and capital expenditures; growth in demand; economic outlook and industry trends; developments of markets; the impact of regulatory initiatives; and the strength of competitors. Such forward-looking statements are based on numerous assumptions by management regarding present and future business strategies and the environment operating in the future. The information contained in this document is provided as at the date of this Presentation and is subject to change without notice. The Company does not intend or have any duty or obligation to supplement, amend, update or revise any of the forward-looking or other statements contained in this Presentation.

Construction programme area figures set out in this presentation, including the "Total area of construction programme" figures, may not reflect the final construction programme area figures. Whether such figures do or do not reflect the final construction programme area figures, they may not reflect the revenues ultimately recognized by Etalon. Calculating construction programme area figures is an inherently subjective process, and is subject to uncertainty. In addition, the construction programme area figures may not be directly comparable to figures given in respect of similar portfolios held by other real estate development businesses in the Russian market as a result of different assumptions and methodologies. In particular, the "Total area of construction programme" figures include area in which governmental authorities, and other third parties, have an interest.

The term "NSA" as used in this Presentation refers to Net Sellable/Leasable Area. NSA figures include parking lots (calculated assuming an average parking lot area of 30 sqm) in the case of Projects under development, and exclude parking lots in the case of completed Projects. NSA figures also exclude communal areas and other areas not for sale.
